Subject: Klein Animal Shelter

Dear Chief Daniel,

Hello! How are you? You may or may not be aware that there has been an animal cruelty complaint filed against Klein Animal Shelter this week. The officer who is handling the case is Officer Hollis. I have been advised that it would be best to ask for a meeting with yourself, Mayor Melvin, your city manager Mr. Raissi, and your city attorney, as well as any other officials that would make important decisions about the situation.

I would like to put before your office the information that has been collected regarding the allegations of animal cruelty at Klein Animal Shelter, the photos which show proof of multiple Texas laws and rules being violated, and the failure of the quarantine facility inspection that was performed on April 29, 2013 by this office.

This office has the responsibility to retain records, which contain photographs and complaints from the public and government operators. These records are available under open records request submitted to our Austin office. I would very much appreciate the opportunity to share the problems that are occurring at Klein Animals Shelter with your members so that this problem can be addressed swiftly.

If your group would have time to meet next week I would make myself available at the time and day convenient to you. I will be out of the office for work on Wednesday and Thursday; however, my cell number is always an option. Thank you for your time and consideration.

Sincerely,
Dr. Melinda Hergert
