On April 20, 2013, Ashley and I were cleaning cat iso. I told her that a cat was strange. It would act like it wants attention then when you go to move it he will get aggressive. Hissing and growling. Ashley opened the crate and the cat came out. Ashley bent down and pet the cat. When she stood up he lunged onto her arm biting and scratching her. Then he landed back on the floor and acted as if he wanted petted again. I stepped out and told Kevin to grab a catch pole cause a cat attacked Ashley. As he took the catch pole in the iso room I went and got catch claws. When I got back in the iso room Ashley had the cat on the catch pole. She kicked the cat several times (while on the catch pole) and said "fuck with me again mother fucker", then she pushed him down the hall to quarantine on the catch pole. She choked the cat until it was unconscious then said "he cant breath" and released him. He layed on the floor in front of his crate and we picked him up and put him in his crate. I also saw Jason

euthanise animals on the 26th of April. And we were all told to put bagged, dead animals in an outside bin the week of the 22nd thru the 26th due to the fact that they could no longer be thrown in the regular dumpster with normal trash.

On April 20th Ashley and Tamra were in

The isolation room cleaning the cat cages. Ashley got attacked by a cat and told Tamra to go get the catch pole, Tamra met me 1/2 way and asked me to get the catch pole, so I went and got it and took it to the isolation room and I gave it to Ashley. Then Ashley caught the cat with the catch pole because it was loose and when she went to catch it she pulled the wire where it was too tight and choking the cat, she started to kicking the cat repeatedly while she had it on the catch pole. Then she dragged it ~~through~~ through the dog isolation room to the cat's quarantine room and the cat was not breathing at that time. Then she shoved the cat in the cat carrying cage and released it and the cat started breathing again.

Since I have started working there I have witnessed Braun, Jason, Nathan, and Angela giving the Euthanasia shots to the dog's and cat's (I only seen Nathan do it once), I've also seen Angela doing it twice. I have seen Jason giving puppies ^{the Euthanasia} in the cages and if there is more than one he uses the same needle. He also does the cat's and kitten's the same way. I have also seen Braun doing the same thing, the only difference is he does the big dogs in the Euthanasia room. Sometimes there's more than one dog in there at the same time.

IF we have a dog that BITE'S we would drag IT through The hallway To The Euthanasia room and we would hold IT'S head on Th Floor next To the wall. Then he would give ~~THE~~ The DOG something To make it Drowsy Then one of us would PUT The DOG BACK In IT'S cage until it is reary Drowsy. Then One of us would drag The Dog Back To The Euthanasia room Then he will put the Dog down. They ~~DO NOT~~ will leave The Dog'S and cat'S In The cage'S sometime'S for an hour or so. Then They will PUT The Dog'S and cat'S in Black Trash Bag'S and Then PUT Them in Freezer'S. sometime'S The DOG'S or cat'S will not Quiet Be Dead. we ~~were~~ ^{were} Throwing The Black Trash Bag'S That'S from The Freezer'S in To The Dumpster on Monday'S, Wednesday'S, and Friday'S. On The week of April The 22nd They wher not allowed To PUT the ~~THE~~ Black trash Bag with Dead Dog'S and Cat'S in it in The Dumpster. So They let The Freezer'S over fill and started to put the Dead Dog'S and cat'S in The out side Vh'S on The Back porch. one of our Freezer'S don't work. The Day That Melinda Hergert came To our dog pound Braun ran To The Back and Told us That we need To hurry up and set the Dead Dog'S and cat'S out of Ther cage'S. Then Braun ran Back To The Back and Told us To Tell The ladies That angela is The only one That Euthanasia Dog'S and cat'S and That he ~~is~~ only a SSIST'S.
